CHOOSE THE UNIT

Moby's hungry, and would like you to fetch the following items from the hardware store. Problem is, he can't seem to get the hang of customary units. Think of a more appropriate unit to measure each item.

1. 9 pounds of copper wire
2. 4 inches of motor oil
3. 10 fluid ounces of steel nails
4. 7 ounces of chain link fence

CALCULATE IT

Fill in the blanks with the correct numbers to complete these customary unit conversions!

- | | | | |
|--------------|---|-------|--------------|
| 14 yards | = | | feet |
| 3 miles | = | | yards |
| 6 quarts | = | | fluid ounces |
| 7 gallons | = | | pints |
| 5 pounds | = | | ounces |
| 3,500 pounds | = | | tons |
